

FAA Safety Team presents:

Airman Certification Standards at this months Pilots Workshop
Checkride Secrets Reveled

Virtually all pilots are familiar with the initials "PTS," and the time they spent studying the FAA's Practical Test Standards in pursuit of a certificate or rating. However, in June the FAA replaced the Private Pilot PTS with Airman Certification Standards (ACS), and other standards are due to be updated as well. At this month's Pilots' Workshop, we'll get a look at the changes in the ACS, as well as the thinking behind the updates. This month's Workshop gets started at 1100 on Saturday, Oct. 22 in the Education Hangar at Willamette Aviation. The event is no charge and eligible for Wings credit. Please contact us to save your seat! And as always, thank you for being part of our Aviation Community!

Directions: DRIVE IN - Two miles south of Wilsonville, just off I-5. 1/4 mile south of Arndt Rd.
FLY IN - Taxi to the very north end of the Aurora airport. Park on the ramp between the fuel island and the FBO building.
AVOID OVERFLYING POPULATED AREAS.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
